

HOW TO SCORE PRACTICE TEST 2

Section I: Multiple-Choice

$$\frac{\text{Number Correct (out of 100)}}{\text{Number Correct (out of 100)}} \times 1.0000 = \frac{\text{Weighted Section I Score (Do not round)}}{\text{Weighted Section I Score (Do not round)}}$$

Section II: Free-Response

Question 1: $\frac{\text{Number Correct (out of 8)}}{\text{Number Correct (out of 8)}} \times 2.5000 = \frac{\text{Weighted Score (Do not round)}}{\text{Weighted Score (Do not round)}}$

Question 2: $\frac{\text{Number Correct (out of 8)}}{\text{Number Correct (out of 8)}} \times 3.1250 = \frac{\text{Weighted Score (Do not round)}}{\text{Weighted Score (Do not round)}}$

Composite Score Range	AP Score
107–150	5
90–106	4
73–89	3
56–72	2
0–55	1

Sum = $\frac{\text{Weighted Section II Score (Do not round)}}{\text{Weighted Section II Score (Do not round)}}$

Composite Score

$$\frac{\text{Weighted Section I Score}}{\text{Weighted Section I Score}} + \frac{\text{Weighted Section II Score}}{\text{Weighted Section II Score}} = \frac{\text{Composite Score (Round to nearest whole number)}}{\text{Composite Score (Round to nearest whole number)}}$$
